

Welcome to our periodical newsletter. We have not updated you for a while and so thought it time to remind you that we are still here (and indeed approaching our 20th anniversary). We have weathered the credit crunch and emerged leaner and fitter from it. This means we still offer the same high quality service but with even better value. Longstanding subscribers will know about the wide range of services we provide and this newsletter includes a reminder of some of the seasonal and more unusual things we do.

Our Japanese tripod ladder in action

Lawns in poor condition can be renovated or re-laid with turf or seed

SUMMER TASKS WE WILL UNDERTAKE FOR YOU

Hedge cutting

'Leylandii', Beech, Yew and many other hedge types should be trimmed in summer and we can now also cut your high and awkward hedges using our new 'Japanese tripod ladder'.

Shrub Pruning

Evergreen Shrubs: Many evergreens should be pruned by late summer to enable any subsequent growth to harden before winter.

Early summer flowering shrubs: A wide range of shrubs are best pruned as soon as possible after summer flowering to allow them to generate new flower bearing branches for next season.

We can selectively prune your shrubs and carry out other general gardening as appropriate.

AUTUMN TASKS WE WILL UNDERTAKE FOR YOU

Lawn Repair

Lawns that are in poor condition after the summer can be renovated or re-laid.

We will assess your lawn and propose a program of weed and moss killing, scarifying, topdressing and over sowing as appropriate or if your lawn is beyond redemption we will completely relay a new lawn from turf or seed.

...and don't forget the
BIG PROJECTS

VAT goes up to 20% in January so contact us soon to discuss any larger landscape projects you may be considering and avoid the January tax increase.

SPECIALIST AND UNUSUAL SERVICES WE OFFER

Natural Stabilised Driveways

With a gravel or real grass surface

Driveway & Patio Refurbishment

Cleaning . Repair . Resurfacing

In addition to the design and installation of permanent labyrinths our specialist

Division, The Labyrinth Builders is now producing beautiful hand painted canvas labyrinths. We can create these bespoke works of art at a fraction of the investment required for a permanent installation, they are portable, easily stored and fully 'walkable' in any indoor space of appropriate size. See our website www.labyrinthbuilders.co.uk for more information.

A portable canvas labyrinth

E mail vs. Snail mail

If you would prefer us to e mail your news, e mail us from your preferred e mail address and we will send 'e news' in future.
